

A New Hope

Scripture: Isaiah 43: 14-21

Date: November 29, 2020

LESS HOPE

TEACHING

Hopelessness today is running rampant through our culture. We have diminished connections with family and friends, we have diminished certainty of what the future looks like. Hope seems like a trite cliché that doesn't offer help.

REFLECTIONS

Where in your world are there areas that seem uncertain and chaotic?

Where in your world are the areas that seem impossible to resolve?

HELP – FROM CHRIST

TEACHING

Hope is not something that is focused on what we have (Romans 5:5 – who hopes for what they already have). God reminds us through Isaiah 43 that He is the source of hope and the process for the hope we have. A new thing in Jesus provides a permanent redemption from the darkness in our world.

REFLECTIONS

Where in your world has God redeemed / brought change?

Where in your world has God surprised you with redemption?

HOPEFULL

TEACHING

Hope is not an abstract theory but a real blessing from God (Romans 15: 13) that gives direction, empowerment – life !! Isaiah 43 reminds us of direction, provision from God that lead us to worship God

REFLECTIONS

Where in your world do you have hope for the future?

Where in your world do you still need hope for the future?
