HUBRIS

TEACHING

Covid 19 life has found our lives often crushed by circumstances greater than ourselves but impact us in ways that bring us to the ground. Life is filled with moments of embarrassment when we think we're in control and at times they are magnified into a sense of humiliation.

REFLECTING

Where in your life or faith have you found levels of embarrassment or humiliation that made it hard to move forward?

HOLINESS

TEACHING

God continues to engage us – when we are strong and when we are weak. Because He knows through Jesus' time on earth the circumstances that leave us bruised and broken. But through His life and death and resurrection – we are lifted beyond the finality of humiliation into a place of healing and humility.

REFLECTING

Where in your life do you need God's power, God's grace, God's love to speak into the hurts of humiliation within you?

HUMILITY

TEACHING

Philippians 2 reminds of God's love through Jesus and the attitude of humility He had – to God and to each of us and we are reminded that this model of Jesus invites us into a life of imitation of Him. In imitation of His humility before God and before each other.

REFLECTION

Where in your world can you live a life more grounded with Jesus?

Where in your world can you live a life more grounded with others as you serve them and are served by them?
